More information can be found in the points below.

3. Legal bases

Insofar as we obtain consent from the data subjects for the processing of personal data, Art. 6 Para. 1 lit. a General Data Protection Regulation (GDPR) serves as a legal basis. For the processing of personal data that is required for the fulfillment of a contract, whose contracting party is the data subject, Art. 6 Para. 1 lit. b GDPR serves as a legal basis. This shall also apply to processing operations that are required for the implementation of precontractual measures. Insofar as the processing of personal data is required for the fulfillment of a legal obligation, to which our company is subject, Art. 6 Para. 1 lit. c GDPR serves as a legal basis. If the processing is required to safeguard the legitimate interest of our company or a third party and the interests, fundamental rights and freedoms of the data subject do not outweigh the first-mentioned interest, then Art. 6 Para. 1 lit. f GDPR shall serve as a legal basis for the processing.

More information can be found in the individual features of our website.

4. Use of cookies

Cookies are used on this website. Cookies make it easier for the user to surf the Internet. A cookie is a small file that can be stored on your computer when you visit a website. Cookies are generally stored in order to offer users additional features on our website.

When you visit our website we distinguish between cookies that are technically necessary and cookies that you can select. You can determine the use of cookies that are not technically required by making a respective selection, also by the settings you made beforehand of the web browser used by you. Each use of cookies that is not technically necessary represents data processing, which is only permitted with your express and active consent in accordance with Art. 6 Para. 1 S. 1 lit. a GDPR. This applies in particular to the use of advertising, targeting, or sharing cookies. Furthermore, we shall only pass on your personal data processed by cookies to third parties if you have given your express consent in accordance with Art. 6 Para. 1 S. 1 lit. a GDPR.

You may give us your full consent or also make a selection yourself. You may revoke your consent at any time with effect for the future. We use the following types of cookies, whose scope and operating principle are explained below. There are two types of cookies: cookies that are deleted as soon as you close your browser and cookies that are stored for longer than the individual session:

- Session cookies (see 4.1)
- Persistent cookies (see 4.2)

4.1 Session cookies

We use so-called session cookies on our website (also called temporary or transient cookies). These session cookies are only stored for the duration of your usage of our website. The session cookies we use serve solely to identify you as long as you are logged in on our website. The session cookies are deleted at the end of each session. The session cookies are not stored beyond this period.

4.2 Persistent cookies

Persistent cookies help our website to remember your data and settings when you call up the website again at a later time. Therefore, we use these cookies in order to be able to identify you for subsequent visits if you have an account with us. Otherwise, you have to log in each time you visit our website.

Persistent cookies are automatically deleted after a specified time which may vary depending on the cookie. You can delete the cookies in the security settings of your browser at any time.

You can configure your browser setting according to your wishes and, e.g., refuse the acceptance of third-party cookies or all cookies. Use the HELP feature in your browser if you want to find out more about this.

Please note that you may not be able to use all features of this website if you block or delete cookies.

The flash cookies used are not collected by your browser, but by your flash plug-in. We also use HTML5 storage objects that are placed on your end device. These objects store the necessary data irrespective of the browser used by you and have no automatic expiration date. If you do not want to allow the processing of flash cookies, you have to install a corresponding add-on, e.g. BetterPrivacy for Mozilla Firefox or the Adobe Flash Killer Cookie for Google Chrome. You can prevent the use of HTML5 storage objects by setting your browser to privacy mode. We also recommend you manually delete your cookies and the browser history on a regular basis.

Further information about the cookies we use, in particular about the respective storage periods, can be found below and [here](#).

5. Use of Google Analytics

To design our website to meet the needs of users we create pseudonymous usage profiles using Google Analytics. Google Analytics uses targeting cookies, which can be stored on your end device and read out by us. This allows us to recognize returning visitors and count them as such

and also to find out how often our websites have been called up by different users. The data processing is realized on the basis of Art. 6 Para. 1 lit. a GDPR (consent).

The information generated by the cookie about your usage of our website is generally transferred to a Google server in the USA and stored there. However, as we activated the IP anonymization on our website, your IP address is truncated beforehand by Google within member states of the European Union. Only in exceptional cases will your full IP address be transmitted to a Google server in the USA and truncated there (Further information about purpose and scope of data collection can be found at <https://policies.google.com/privacy?hl=de&gl=de>). We also concluded a contract with Google LLC (USA) on order processing in accordance with Art. 28 GDPR. Google shall only use all information strictly for a specific purpose in order to analyze the usage of our websites for us and compile reports on the website activities.

You may revoke your consent at any time. To do so, please use one of the following options:

- You notify us that you would like to revoke your consent.
- You can prevent the storage of cookies with a corresponding setting on your browser software; however, please note that with this setting you may not be able to fully use all features of this website.
- In addition, you can also prevent the data generated by the cookie relating to how you use our websites (including your IP address) being registered and processed by Google by downloading and installing the browser plug-in available at the following link: (<https://tools.google.com/dlpage/gaoptout?hl=de>)."

6. Other features and offers of our website

Apart from using our website for purely informative purposes, we also offer different services that you can use if you are interested. For this purpose, you generally have to provide personal data which we use to provide the respective service and for which the principles of data processing apply.

Sometimes we use qualified external service providers to operate our website and the associated processes, and for optimization and protection. We observe the requirements of Art. 28 GDPR, § 62 BDSG new.

Personal data is only disclosed to the extent necessary for the provision and use of the website, pursuing legitimate interests, fulfilling legal obligations, or insofar as you have given your consent. We concluded a contract on the processing in accordance with instructions with the processors, which ensures that your personal data is processed for a specific purpose and not disclosed without permission.

Please note that for individual features of our website your personal data may be transmitted to countries outside the European Union and the European Economic Area, which have no comparable level of data protection so that an appropriate protection level is not guaranteed.

The European Commission attests to a data protection that is comparable to the EEA standard for some third countries through so-called adequacy decisions (a list of these countries as well as a copy of the adequacy decisions can be found here: http://ec.europa.eu/justice/data-protection/international-transfers/adequacy/index_en.html). However, in other third countries where personal data may be transmitted, there is possibly not a consistently high level of data protection due to a lack of statutory provisions. If this is the case, we ensure that data protection is sufficiently guaranteed. This is possible through binding company rules, standard contractual terms of the European Commission on the protection of personal data, certificates, or recognized codes of conduct. Please contact our Data Protection Commissioner if you would like more information on this topic. Please note that particularly in the case of transmission to the USA there is a risk that your data may be processed by US authorities for control and monitoring purposes and you may not be entitled to any legal remedies.

Our website also uses features of other service providers. You are redirected to the actual website of the service provider for their use. You are informed accordingly before the redirect. You can view the respective privacy statements on the websites of the service providers.

As the offers of these service providers are made under their own name and for their own purposes, Balluff is unable to influence these offers or assume responsibility for the respective offers.

On our website you have the option to send inquiries via forms or by e-mails. All personal and other data, which is transmitted for such inquiries, is only used by us for the processing of your inquiry and is treated in the strictest confidence. When you contact us using our contact form or by e-mail - the use of the contact form is optional - for each transmission the personal data you entered on the form and details such as the date and time the inquiry is sent are recorded and processed by us. This processing is carried out for the processing of your message. The legal basis for this processing is Art. 6 Para. 1 lit. f GDPR (balancing of interests). This follows from the economic, moral, and technical interest in the provision and usage of a contemporary information medium. The data recipients are solely our employees.

In this context we expressly point out that our contact form is sent and received by us in an encrypted form (TLS, SSL). However, this is only a so-called transport encryption. The authenticity, integrity, or confidentiality of a transmitted message cannot be assured. Therefore, please do not send any sensitive personal data to us on the contact form. All data collected and transmitted for the purpose of establishing contact will be deleted once its storage is no longer required, or we shall restrict processing if there is any statutory obligation of retention.

Within the framework of the contact inquiry via our website, there is also the option to grant your consent for marketing purposes in accordance with clause 6.4 through the double opt-in procedure, which is processed via the external service provider HubSpot. The legal basis is Art. 6 Para. 1 lit. a GDPR. You may withdraw your consent to the sending of the newsletter/e-mail at any time and cancel the newsletter/e-mails. The data is processed by the external service provider, Cui Bono, Advertising & Direct Marketing, within the framework of the order processing.

The processing of your personal data in this connection is realized on the basis of your consent, Art. 6 lit. a GDPR. You have the right to revoke the consent at any time. 6.4 Newsletter and e-mail marketing

Your personal data is processed for the purpose of sending the newsletter and e-mails. In this way you can obtain information about interesting new products and also receive content tailored to you.

Within the framework of registering for our newsletter and e-mail communication you consent to the processing of your personal data. The legal basis is Art. 6 Para. 1 lit. a GDPR. We use the so-called double opt-in procedure for the registration. This means that after you have registered, we will send an e-mail to the e-mail address stated in which we will ask you for confirmation that you wish to receive the newsletter and e-mails. The purpose of this procedure is to verify your registration and if necessary to enable potential misuse of your personal data to be resolved. You may withdraw your consent to the sending of the newsletter/e-mail at any time and cancel the newsletter/e-mails. This can be done by clicking on the link in every e-mail and newsletter, sending an e-mail to balluff@balluff.de, or sending a message to the contact details in the section contact of this website.

Using so-called Tracking Links in HubSpot we can also determine whether and which links are clicked in these e-mails. This information is not transmitted to third parties. We use these features for our interest in order to optimize the content and technical features of our offers and newsletter/e-mails. The legal basis for the processing of your personal data is your consent in accordance with clause 6.4, Art. 6 Para. 1 lit. a) GDPR. To this end, we use Ad Server cookies through which certain parameters can be measured for the performance measurement, like insertion of ads or clicks by the user. If you reach our website from a Google ad, a cookie is stored by Google Adwords on your PC. These cookies generally lose their validity after 30 days and are not intended to personally identify you. For this cookie the unique cookie ID, number of ad impressions per placement (frequency), last impression (relevant for post-view conversions), as well as opt-out information (marking that the user no longer wishes to be contacted), are generally saved as analysis values.
- 3) These cookies allow Google to recognize your Internet browser. If a user visits certain pages of the website of an AdWords customer and the cookie stored on his computer is not yet expired, Google and the customer are able to recognize that the user has clicked on the ad and has been redirected to this page. A different cookie is assigned to every AdWords customer. Cookies cannot be tracked via the websites of AdWords customers. We do not collect and process any personal data in the stated advertising measures. We only receive statistical evaluations from Google. On the basis of these analyses, we are able to recognize which of the advertising measures used are particularly effective. We do not receive additional data from the use of advertising media. Moreover, we are unable to identify the users using this information.
- 4) Owing to the marketing tools used, your browser automatically establishes a direct connection with the Google server. We have no influence on the scope and further use of the data, which is collected by the usage of this tool by Google and therefore provide the following information which reflects our current knowledge: With the embedding of AdWords Conversion, Google obtains the information that you called up the corresponding part of our website or clicked on our ad. If you are registered for a Google service, Google may assign the visit to your account. Even if you are not registered with Google or not logged in, there is the possibility that the provider finds out and saves your IP address.

The use requires your prior consent. You may revoke this consent at any time. You can also prevent participation in this tracking process in many different ways: a) with a corresponding setting in your browser software, the blocking of third-party cookies in particular means that you do not receive any ads from third parties; b) by deactivating the cookies for Conversion Tracking, by setting your browser so that cookies from the domain "www.googleadservices.com" are blocked, <https://www.google.de/settings/ads>, whereby this setting is deleted when you delete your cookies;

c) by deactivating the interest-based ads of providers who are part of the self-regulation campaign "About Ads", via the link <http://www.aboutads.info/choices>, whereby this setting is deleted when you delete your cookies; d) by permanent deactivation in your browsers Firefox, Internet Explorer, or Google Chrome under the link <http://www.google.com/settings/ads/plugin>. Please note that in this case you may not be able to use all features of this offer.

The legal basis for the processing of your data is Art. 6 Para. 1 Clause 1 lit. a GDPR. You can find further information relating to data protection with Google here: <http://www.google.com/intl/de/policies/privacy> and <https://services.google.com/fh/files/misc/sitestats/de.html>. Alternatively, you can visit the website of the Network Advertising Initiative (NAI) at <http://www.networkadvertising.org>.

8. Period of retention

We shall only store your personal data for as long as is required for the intended purpose of data collection, or as required by law. More information can be found in the individual features of our website.

9. Data security

We apply appropriate technical and organizational security measures in order to protect your data against accidental or intentional manipulation, partial or full loss, destruction, and against unauthorized access by third parties (e.g. TSL encryption for our website) taking into consideration current technology, the implementation costs and the nature, scope, context, and purpose of the processing, as well as the existing risks of a data breach (including its probability and effects) for the data subjects. Our security measures are continuously enhanced in line with the development of technology. We are happy to provide further information in this regard upon request. Please contact our Data Protection Commissioner.
